

SKODA

The all-new
Superb

To lead is to explore

On the road, you can lead your way forward. With the right partner, you'll be able to explore the world. Make your life smarter. Give your family a space to grow. The Škoda Superb is that partner.

The new Superb comes with even more space for passengers and anything they might bring. A smarter way of control that combines the digital flow with a tactile experience. Next-level comfort with features like Ergo seats and even more practicality. A new vision of what your drive could be.

The improved engine line-up now includes a plug-in hybrid with more than 100 km range, so you can live and drive smarter. Add to that the new dual-valve DCC adaptive suspension and you'll get to discover a whole new level of driving dynamics and comfort.

The new Škoda Superb. To lead is to explore.

The look to be followed

Looking smart and driving smart can be the same thing. We made the new Superb more efficient and more practical. We also turned it into a new vision of how a family explorer might look. Lead your way to the next adventure. And look great doing it!

Smooth & sharp at the same time

Smooth lines born from crystalline structures. A sleek shape built around practicality. The new Superb is large enough for many personalities. A safe space for whoever you might want to be.

Practical elegance

From the unmistakable, imposing front fascia with bold, wide grille and sharp-edged Crystallinium headlights, the smooth lines of the bodywork flow towards the spacious rear. Under the elegant, aerodynamic shape that cuts through air even easier than before, the new Superb once again offers exceptional space and practicality.

Thanks to the longer and higher body, all passengers have even more headroom. The stylish rear hides the largest luggage space in the class. Overall, the Superb once again proves that attractive looks, effective aerodynamics, and great practicality can go hand in hand.

LED Matrix beam headlights

Crystal clear view with a Crystallinium style. The LED Matrix beam headlights provide great visibility even with other cars around. The coloured crystalline element accentuates the sharp contours of the headlights, adding a touch of elegance and visual appeal.

LED rear lights with animated indicators

With crystalline elements inside, the LED rear lights with animated indicators create an unmistakable and easy-to-recognize visual signature. This look is underscored by the use of full LED technology and the dynamic turn signals, which illuminate sequentially towards in the direction you are turning.

Virtual Pedal

Full hands are not a problem anymore. With Virtual Pedal, just a swing of the foot under the bumper is enough to open the door. Available in combination with KESSY and electric 5th door.

Walk-away KESSY

Never forget to lock your car ever again. With the new walk-away function, the Keyless Entry Start and Exit System will not only lock and unlock your car with a touch of any of the four door handles, but will also automatically lock the doors when you walk away with the key.

A space to lead

A digital world that's nice to touch. A luxury feeling from sustainable materials. The new Superb merges traditions with a vision of the future. It leads the way to the digital world while retaining the intuitive tactile controls. Its sustainable new materials are attractive to look at and pleasant to touch. With the new column-mounted shifter and sleek Smart Dials, there's plenty of room for clever ideas and handy storage. The ambient lighting gives the interior a unique atmosphere, highlighted by a myriad of smart details.

Head-up Display and Virtual Cockpit

All the key information right in front of you. The standard 10" Virtual Cockpit offers driving data in an easy-to-comprehend, customisable view. In addition, the Head-up Display can be selected as an optional extra, showing the most crucial information and navigation guidance right on the windscreen.

All the information, as you need it.

See what you need when you need it. With the Head-up Display, 10" Virtual Cockpit, and 13" Škoda Infotainment, the new Superb keeps you in the picture, with information ranked by importance.

Infotainment screen

The world at your fingertips. With a 13" touchscreen, the new Škoda Infotainment offers an even clearer way of displaying all the information and entertainment features that will make travelling a truly enjoyable experience. Smoother, faster operation thanks to the new generation of MIB system.

Display Cleaner

An always clean and shiny screen. Easily remove smudges and fingerprints from the infotainment display or any other shiny surface. The Display Cleaner is neatly stored in the front armrest, it's easily on hand whenever you need it.

A leader in intuitive control

With everything at your fingertips, keeping things under control is easier than ever before. And with a new way to use space, there's more room for things you might need. With the Škoda Smart Dials and column-mounted shifter, the new interior concept has been born.

Škoda Smart Dials

The best of both worlds. The Škoda Smart Dials combine the best features of displays and physical controls. By pressing or turning the dials, you have instant access to key functions. See the selected function and its status on the display in the middle or use the tactile dials to set the temperature, volume, or fan speed.

Jumbo Box

Have everything you need on hand. Jumbo Box not only offers ample space, but also clever ways to store everyday items. Plus special holder for Display Cleaner to keep your screens shiny, and moveable glasses holder.

Ergo seats

Comfort even on the longest drives. With 14-way electric adjustment, 4-way lumbar support, and Advanced massage functions, the Ergo seats were designed with the health of your back in mind. Tested by the German AGR (Healthy Back Campaign) organisation. With heating and cooling for even greater comfort.

Gear selector

Easy control, more space. Mounted on the steering column, the gear selector is right at your fingertips. It also leaves the steering column free for more storage space.

Ambient lighting

New styles of décors, including Melange grey or Swan drawing, pair together with improved, multi-coloured ambient lighting to create a unique atmosphere on board.

Always charged

The phone box provides wireless charging for your smartphone with cooling to prevent your device from overheating. This compartment is not only easily accessible, but is also suitable for large display devices.

Take the online world with you

Stay connected wherever you are. Being fully and permanently online means always having access to entertainment, information, and possible assistance while on the move. Škoda Connect is your gateway to a world of unlimited communication options.

Always connected

The infotainment screen is not just larger than ever before. It also offers access to even more features, like the set-up for improved ambient lighting, in a brand-new, smooth virtual environment. Explore the world in a digital way.

Where small details do big things

Leading forward is easier with a little help. Someone to take care of the small things. The new Škoda Superb thinks of everything. Smart ways to store little things, clever ways to work on the go. Surprising stuff to keep your family entertained.

Armrest with tablet holder

Your entertainment or work centre for the road. Enjoy a film or watch a presentation on the tablet, while having a place to safely put your drinks.

Double pocket

Keep your things organised with the double pockets on the rear sides of the front seats. The larger one is perfect for a notebook or laptop computer, while the smaller one nicely fits a smartphone.

**Space for everything.
Place for everything.**

Not just biggest. Smartest. There is not only a space for everything, with 645 litres in liftback version and 690 litres in the combi. You can also give every thing its own place. Hooks, nets, cargo elements, double floor and other smart features are there to keep your life on the road organised.

Movable multifunctional storage

The practical net under the roller cover is perfect for storing items such as life jackets, handbags, or other light items. It is perfect for things that you want easily on hand and away from heavier items in the boot.

Electric roller cover

The roller cover off the boot automatically retracts when the tailgate is opened and extends again when it is closed. It can be unlocked for manual operation, for example when carrying large items.

Predictive Adaptive Cruise Control

Using a radar device, camera equipped with traffic sign recognition, GPS technology and detailed information from the road map, pACC can predict driving conditions for the next 1–2 km. As a result, the system can automatically adjust the cruise speed when necessary – typically before a turn or roundabout, or when entering an area with a reduced speed limit. The system increases driver comfort and driver safety while also reducing fuel consumption and CO₂ emissions.

Safer. Easier. Smarter.

The Travel Assist system combines Adaptive Cruise Control (including Front Assist) and Adaptive Lane Assist functions. For maximum safety, the system must be constantly monitored by the driver. That's why a capacitive steering wheel detects the driver's tactility, providing an interactive interface to the system. If the driver is not engaged in driving, the system issues a visual and audible warning and eventually disengages.

Adaptive Lane Assist

The system is capable of keeping the car in the middle of the correct lane and of alerting the driver in case of deviation. It can also take control of the car in the event of lane changes during roadworks

Turn Assist

Automatically activated when the vehicle is turning, this system uses front sensors monitoring the area in front of the vehicle. This allows it to prevent collisions with the oncoming traffic that could've been overlooked by the driver.

Trained Parking

A highly advanced parking assistant is used to automatically complete a parking manoeuvre in a familiar environment, e.g., at home. First, the driver performs the parking manoeuvre and saves the route to the system's memory. For example, it records the route from the entrance to your property to the garage or a parking space. After that, as soon as the car recognises the scanned route, it will ask you (via the infotainment) whether it should take control. Following your approval, the vehicle will park itself. You simply monitor it from the driver's seat.

Parking smarter is parking safer

Could parking be any easier than fully automatic? The new Superb is able to find you a space and park in it, without you even being in the car. It can also be taught to park in a spot of your choosing.

Intelligent Park Assist

Let your car find and offer you parking spaces. Select one and then just sit back and watch. The Superb will autonomously drive itself into the parking space, without the driver having to touch the wheel or pedals.

Loft interior

Grey fabric pad
Black polished décor
Grey fabric upholstery

Selection

Standard equipment for the Selection version includes, for example 3-zone Climatronic and heated front seats, Smart Dials, 10" digital instrument panel and 10" Infotainment, leather multifunction steering wheel, four USB-C ports, wireless charging, and cruise control.
